

## Septiembre 2011

Trainings offered in JR Electronics & Pneumatics Training Center are from 8:00 a.m. to 5:00 p.m., continental breakfast and lunch are served. **Enrollments** and cancellations **two weeks** prior scheduled date.

JR Electronics & Pneumatics reserves the right to make changes on schedules, trainings contents, prices and limit or cancel classes.

JR Electronics & Pneumatics, Corp. has been approved as an **Authorized Provider** by the Internacional Asociation for Continuing Education and Training (**IACET**). JR Electronics & Pneumatics is authorized to offer **CEUs** for it's programs that qualify under the ANSI/IACET Standards.

**Our equipment and know-how makes the difference**

**“MECANICA INDUSTRIAL”**  
 Students construct and test a range of mechanisms to evaluate them against design criteria. A wide range of different systems that incorporate gear wheels, belt drives and pulleys are tested. The problem solving tasks test the student’s ingenuity and strengthen their applied math skills.

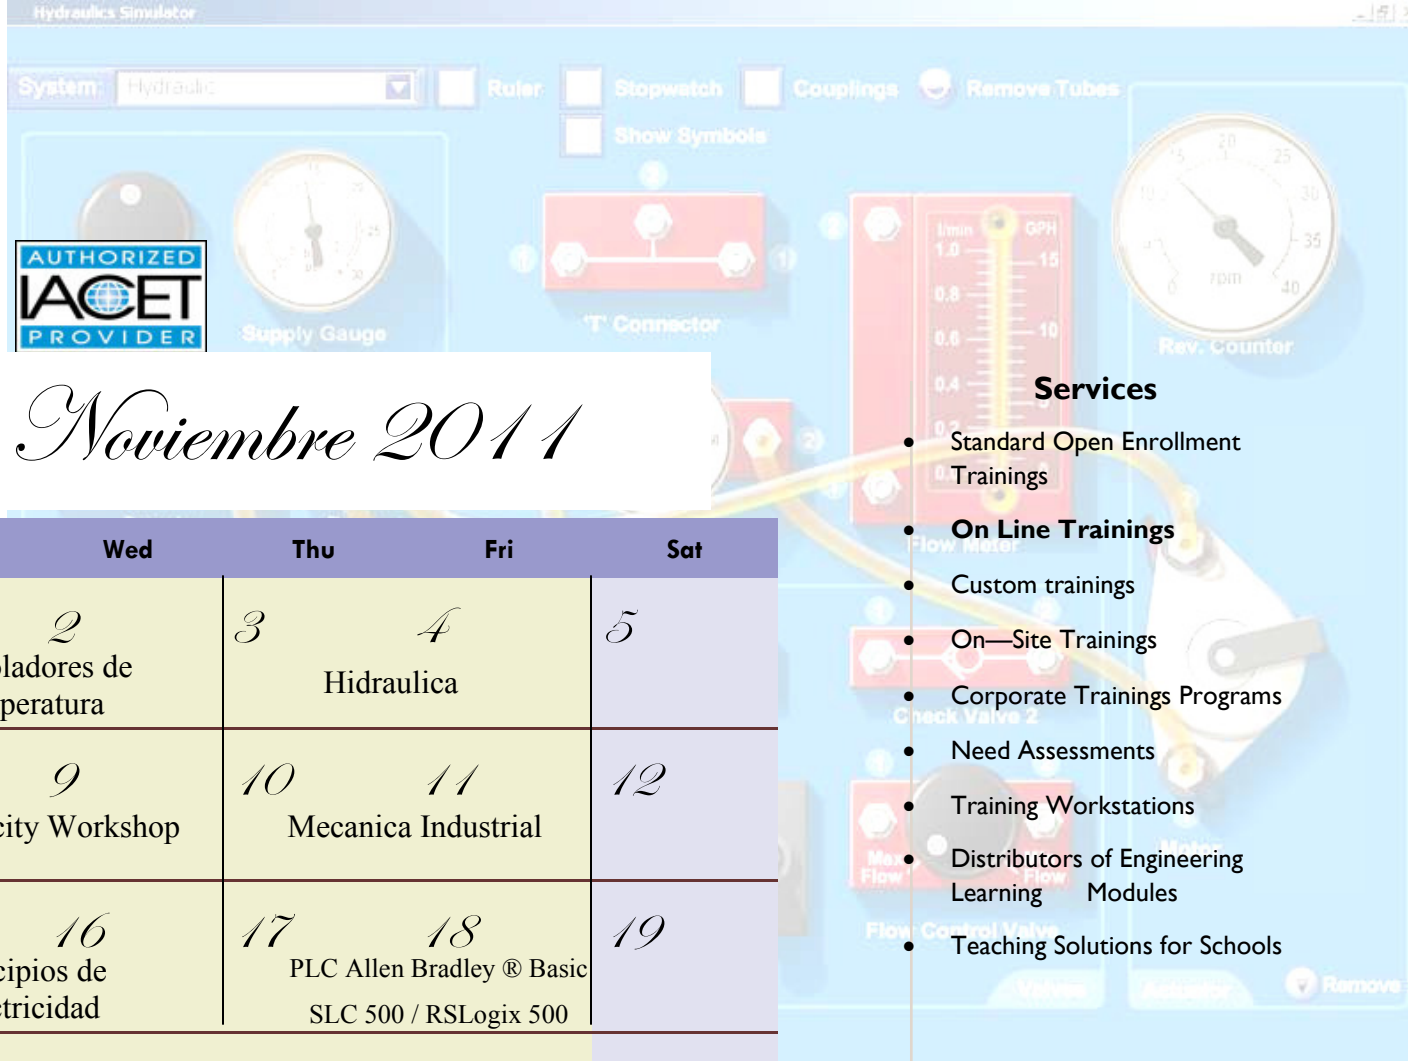

**“HIDRAULICA”**  
 Provides both real hands-on hardware in the form of our Hydraulics Trainer and a unique software simulation of hydraulic systems. This enables the whole class to carry out activities in the same topic areas at the same time. The simulator allows the student to construct, operate and evaluate hydraulic circuits.
